The SNOW BANK

Snow Cone Machine

The Snow Bank ice shaver will produce up to 500 pounds of crushed ice per hour. The blades of the cutting head are preset to produce standard coarse snow cone ice or it can be adjusted to produce finely shaved ice. Rotating at 1700 rpm's the heavy duty 1/3 hp motor is designed for years of durable service. This simple to use machine features tinted tempered glass panels, die-cast aluminum horn, cutting head and pusher, adjustable stainless steel cutting blades, Safety Re-set Button, Snow Cone Shaper, polycarbonate service door and a molded plastic drainage deck.
