FRYER
FIVE TUBE BURNER
BLF5-LPG / BLF5-NG 8.3 gallon / 70lbs

PRODUCT DESCRIPTION

Expanded "Hot Zone", due to 5 super efficient cast iron tube burners in each Fryer. Even heat distribution and quick recovery. Oil temperature fluctuations are regulated by a heavy-duty probe that activates a climate assist burner for reliable and even heat consistency.

Millivolt safety control system regulates temperatures for DCF5-LPG/NG. Temp range of control is 200 - 400 degrees Fahrenheit.

ALL areas of the internal frypot can be reached and cleaned by hand. No "out of reach" zones.

Oversized cold zone and gently pitched frypot floor promote particle and sediment collection toward the front of the Fyer for easy removal and cleaning. Larger Cold zone and localized sediment collection allows for cleaner and longer lasting oil usage.

MODEL#	DIMENSIONS		
	Width	Depth	Height
BLF5-NG	21 in	32 7/8in	45in
BLF5-LPG	21 in	32 7/8in	45in

* All measures are presented in Inches
