MODEL AH FRONT VIEW

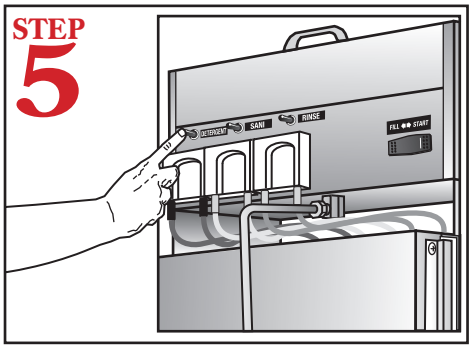

STEP 4

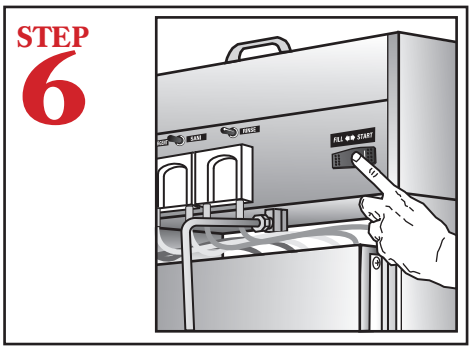

Level dishmachine by adjusting leveling legs. Dishmachine must be level front to back and side to side to ensure proper performance.

STEP 5

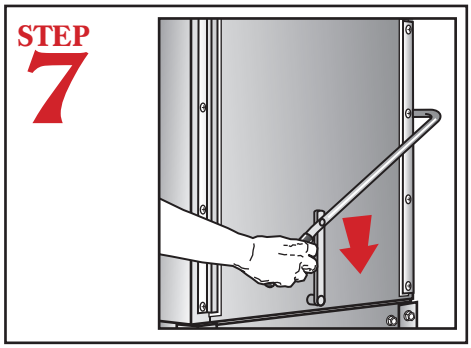

Press and hold down the three Prime Switches for the chemical pumps until product is discharging into the machine.

STEP 6

Press and hold the Fill/Start Switch until the water level is approximately 1/2" to 3/4" below the overflow hole in the PVC standpipe.

STEP 7

To start machine close the doors. The machine will automatically start and run through its cycle.
