GuestChecks™ WaitRpads®

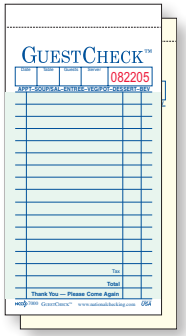

The crucial link between a customer's order and the POS computer system is the memory of a server. Scratch pads, napkins, scrap paper or bad memory can cost money on every order. GuestChecks and WaitRpads help wait staff build larger orders and accurately enter them into a POS system.

GuestChecks™ WaitRpads®

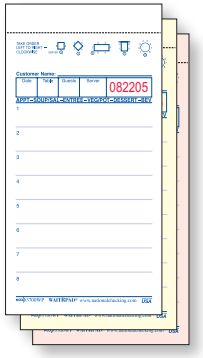

WaitRpads feature:

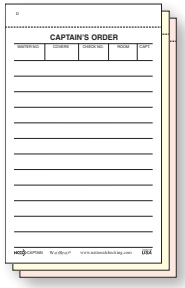

Menu Item Guide: A special reminder section helps build business by prompting servers to ask for beverages, appetizers and desserts.

Server Ordering Guide: A table seating diagram helps the server connect the customer with their order, insuring accuracy.

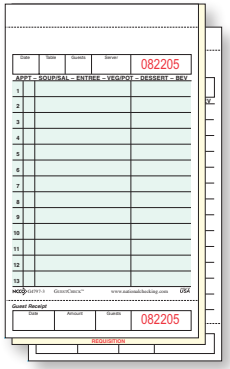

Customer Name Prompt: Enables server to offer even more personalized service by referring to the customer's name.

REGISTROLLS®

Packaged to Provide Great Service

- Small case sizes, great for weekly deliveries
- Sealed packaging minimizes moisture damage

To determine which size roll is needed

1. Identify the paper type: one-ply bond, two-ply carbonless or thermal
2. Locate the section on the chart below
3. Hold the existing roll horizontally as if it's being placed in the machine
4. Measure it against the green shaded bar in the appropriate section to find the roll size and item number.

CUSTOM LABELS

Turn generic packaging into a marketing tool

Did you know adding a custom label to take out containers and other packaging can:

- Increase brand awareness
- Attract new customers who might be unfamiliar with the business
- Retain existing customers and keep them coming back for more
