EIC-400E - Commercial Electric Induction Cooker, 1800W

SKU: EIC-400E

The Winco EIC-400E is a commercial-grade portable induction cooktop burner designed for daily use in commercial-food service environments ideal for catering, tableside cooking, buffet line cooking and more. Powered by an 1800 watt electromagnet, this induction burner is powerful enough to bring water to a rolling boil faster than traditional gas or electric burners. Featuring adjustable heat settings from 1-10, induction cooking technology offers the heat responsiveness of a gas burner with the even heating of an electric burner for a truly superior cooking experience. With induction cooking, only the pan gets hot reducing the risk of accidental burns. A 180-minute timer offers a convenient automatic shutoff. The ceramic glass surface can detect induction compatible pans as small as 4-3/4”-10-1/4”. Dimensions: 11-3/4L” x 15-3/4”W x 2-3/4”H. 120V~60Hz, 1800W, 15A, NEMA 1-15P Plug.

- 1800 Watts – Powerful induction element can boil water faster than traditional gas or electric burners
- Stay Cool Top – Induction heating means only the pan gets hot ideal for tableside catering and buffet line cooking
- Adjustable Power – Heat settings from 1 – 10 ensure responsive heating for everything from a simmer to a rolling boil
- Superior Heating – Electromagnetic cooking provides the quick and responsive heating of a natural gas burner and the power of an electric burner without the safety risks
- 120V~60Hz, 1800W, 15A, NEMA 1-15P Plug
