Pizza Prep Table

Food Prep Tables - Pizza Prep
Super Deluxe Series

Model : TPR-67SD-N

Patented Self-Cleaning Condenser

This product is equipped with a fine mesh filter to the front of the condenser to catch dust, and a rotating brush that moves up and down daily to remove excess buildup outward and away.

FEATURES & BENEFITS

Self-Cleaning Condenser
The accumulation of dust in the condenser can cause the failure or breakdown of refrigerators. Refrigerators run normally until they reach a certain level of accumulation. At some point, when they are over the limit, their performance drops quickly resulting in damage to, or disposal of the stored products inside. The Self-Cleaning Condenser device keeps the condenser clean and prevents system failure by automatically brushing daily.

Hydrocarbon refrigerants (R-290)
With innovative and eco-friendly technology, Turbo Air brings you hydrocarbon refrigerators designed to meet DOE's Energy Conservation Standards in 2017 and to use EPA's SNAP Program approved HC refrigerants. Hydrocarbon refrigerants do not deplete the ozone layer and have very low contribution to global warming (ODP-0, GWP-3).

Cold Bunker system
Our innovative forced air system allows cold air to flow all around the food pan area, covering not only underneath the pan, but also the front, top and the rear. This unique air flow creates a cold air-shield around the pan, which maintains the food temperature at under 41°F (NSF requirement) even when the lids are opened. In addition, the compartment isolates pans from the reach-in area to prevent food spillage.

Stainless steel cabinet construction
The Turbo Air Super Deluxe model bo asts a stainless steel interior (ABS door liner) and exterior (galvanized steel back & bottom).
It guarantees the utmost in cleanliness and long product life.
The Super Deluxe adds a touch of style to the most refined setting.

Insulated pan cover

Sturdy, clean stainless steel shelving
Shelves are the most important part of cleanliness as they come in direct contact with food. After a while, PVC coated wire shelves may peel, rust and lead to unsanitary conditions. Only the Turbo Air Super Deluxe series uniquely provides stainless steel shelving.

Extra deep HDPE cutting board
Our cutting board is 19-1/4" deep and 1/2" thick to provide ample working space, and is made of easy to use and sanitize HDPE (High Density Polyethylene). The new side rail cutting board bracket makes it easy to secure and remove the cutting board.

LED interior lighting & fan control
Energy efficient LED lighting lights every corner, making items easy to find. Fan control function automatically shuts off the fan when the door is open, which prevents hot air from being drawn in, thus maintaining the cool inner temperature.

Side mount compressor unit
Compressors positioned on the side of the units make serving our units easy. Our front air intake feature also allows this model to be highly efficient in narrow spaces.

High-density polyurethane insulation
The entire cabinet structure and solid doors are foamed-in-place using high density, CFC free polyurethane insulation.

Refrigerator holds 33°F ~ 41°F for the best in food preservation

STANDARD FEATURES

- ***Anti-corrosion coated evaporator***
- ***Self-contained system***
- ***4" dia. swivel casters with locks on the front set***
- ***1/3 size, 6" deep condiment pans included***

OPTIONAL ACCESSORIES

- 2.5" caster, ½" diameter & 13 TPI: 30265H0100 (non-brake), 30265H0200 (w/ brake)
- 5" caster, ½" diameter & 13 TPI: M726500100 (non-brake), M726500200 (w/ brake)
- Leveling leg, ½" - 13 TPI x 1.54": LFM1213566
- Half size bun pan rack: TSP-2224
- Stainless steel single overshelf: TSOS-P6-T
- **Door lock: lead time applies. Please contact your sales representative for more details to order.**
