Bottle Coolers

Underbar Equipment
Super Deluxe Series

Patented Self-Cleaning Condenser

This product is equipped with a fine mesh filter to the front of the condenser to catch dust, and a rotating brush that moves up and down daily to remove excess buildup outward and away.

Model : TBC-24SD-N6
TBC-24SB-N6

TBC-24SD-N6

TBC-24SB-N6

FEATURES & BENEFITS

- ***Self-Cleaning Condenser***
  The accumulation of dust in the condenser can cause the failure or breakdown of refrigerators. Refrigerators run normally until they reach a certain level of accumulation. At some point, when they are over the limit, their performance drops quickly resulting in damage to, or disposal of the stored products inside. The Self-Cleaning Condenser device keeps the condenser clean and prevents system failure by automatically brushing daily.

- ***Hydrocarbon refrigerants (R-600a)***
  With innovative and eco-friendly technology, Turbo Air brings you hydrocarbon refrigerators designed to meet DOE's Energy Conservation Standards in 2017 and to use EPA's SNAP Program approved HC refrigerants. Hydrocarbon refrigerants do not deplete the ozone layer and have very low contribution to global warming (ODP-0, GWP-3).

- ***Forced air cooling system***
  Positive guided forced air cooling system chills bottles on top first.

- ***High-density polyurethane insulation***
  The entire cabinet structure is foamed-in-place using high density, HCFC free polyurethane insulation.

- ***Side mount compressor unit***
  With compressors positioned on the side of the unit, our refrigerators can now be serviced without being moved. Our innovative, front air intake feature also allows this model to be highly efficient in narrow spaces.

- ***Stainless steel cabinet construction***
  Super Deluxe (SD) models boast a stainless steel exterior (except galvanized steel back and bottom). SB models have an attractive wear-resistant black vinyl exterior. Heavy gauge stainless steel countertop and glide lids are perfect for sanitation and durability. The interior is stainless steel except galvanized steel top. Turbo Air Bottle Cooler model guarantees the utmost in cleanliness and long product life. It also adds a touch of style to the most refined setting.

- ***Adjustable, heavy duty, PE (polyethylene) coated dividers***

- ***Rugged built-in removable bottle cap opener and cap catcher***

- ***Large capacity cooler cabinet requires only minimum floor space***

- ***Refrigerator holds 33°F ~ 38°F for the best in beverage preservation***
